CURRICULUM VITAE PROFILE

Dedicated and analytical **Android Application Engineer** with an established academic foundation in Computer Science and verified production experience designing enterprise and consumer-facing mobile solutions. Proven expertise in modern **Kotlin** and **Jetpack Compose** architectures, reactive local caching via **Room SQLite**, and robust cloud integrations. Demonstrated engineering track record sustaining **99.8% crash-free sessions**, reducing backend bandwidth by **40%**, and solving **200+ algorithmic problems** across global competitive programming platforms. Passionate about clean code, MVVM patterns, modular design, and test-driven mobile development.

TECHNICAL COMPETENCIES & SKILL MATRIX

- **Programming Languages:** Kotlin (Primary), Java (Proficient), Python, SQL, C, C++, JavaScript (ES6+), HTML5, CSS3
- **Android Framework & SDK:** Jetpack Compose, XML Layouts, Activity & Fragment Lifecycles, Material Design 3, Jetpack Navigation, Android Services, Broadcast Receivers, WorkManager, AlarmManager
- **Architecture & State:** MVVM (Model-View-ViewModel), Clean Architecture, Repository Pattern, Jetpack ViewModel, LiveData, Kotlin Coroutines, StateFlow, SharedFlow, Dependency Injection
- **Data Storage & Persistence:** Room SQLite Database, Android SQLite, SharedPreferences, EncryptedSharedPreferences, Jetpack DataStore, Firebase Cloud Firestore, Firebase Realtime Database
- **Cloud & Networking:** RESTful APIs, Retrofit 2, OkHttp, JSON Parsing (Gson, Moshi), Firebase Authentication, Firebase Cloud Messaging (FCM), Cloud Storage, Postman API Testing
- **Build, CI/CD & Tools:** Android Studio, VS Code, Git Version Control, GitHub Actions, Gradle Build Scripts, Google Play Console, ADB, Android Profiler, Logcat, Linux Environment
- **Methodologies & Soft Skills:** Agile / Scrum Sprints, Object-Oriented Analysis & Design (OOAD), Data Structures & Algorithms, Peer Code Reviews, Technical Documentation, Problem Solving

PROFESSIONAL WORK EXPERIENCE

Adyapan Edutech Private Limited — Android Developer Intern

Hyderabad, Telangana | Mar 2026 – Sep 2026

Domain: Enterprise Educational ERP, CRM Automation & Biometric Security Systems • **Tech:** Kotlin, Jetpack Compose, Room, WorkManager, Firebase, Retrofit

- Spearheaded Android module releases for enterprise apps, sustaining **99.8% crash-free sessions** across 5,000+ active installations and accelerating sprint deliveries by **25%**.
- Architected and built the **Lead Dialer CRM** mobile engine with automated one-tap dialer queues and background processing, logging **1,000+ daily call interactions** and improving sales outreach efficiency by **35%**.
- Developed on-device biometric attendance module combining facial recognition with **Google Play Services Location** and GPS geofencing, eliminating **100% of proxy attendance** within a strict **50-meter perimeter** for **200+ on-site staff**.
- Authored native Android dashboards for **One School App** and **LMS** with customized role-based access control, deploying targeted **Firebase Cloud Messaging (FCM)** alerts to **5,000+ registered students** with a **28% increase in engagement**.
- Engineered offline-first persistence using **Room SQLite** caching paired with asynchronous **Firebase Firestore** synchronization, slashing redundant server network requests by **40%**.
- Collaborated in 2-week Agile sprint cycles, conducting peer code reviews, profiling memory leaks with **Android Profiler**, and configuring ProGuard/R8 rules to minimize production APK size.

ACADEMIC EDUCATION

Lovely Professional University (LPU) — B.Tech in Computer Science and Engineering

Phagwara, Punjab | Sep 2022 – Jun 2026

Key Coursework: Data Structures & Algorithms, Object-Oriented Programming (Java/C++), Database Management Systems (SQL), Operating Systems, Computer Networks, Software Engineering, Design & Analysis of Algorithms, Mobile Computing.

S.N.S. College — Intermediate (Class XII, Science) • Aggregate: **67.6%**

Motihari, Bihar | Apr 2020 – Mar 2022

Core Subjects: Physics, Chemistry, Mathematics, English, Computer Science.

Jeewan Public School — Matriculation (Class X) • Aggregate: **78.6%**

Motihari, Bihar | Apr 2018 – Mar 2020

Core Subjects: Mathematics, Science, Social Science, English, Hindi.

KEY ENGINEERING PROJECTS

Zoo Explorer — Wildlife Companion Application [\[Live on Google Play\]](#) [\[Play Store\]](#) [\[GitHub\]](#)

Apr 2025

Core Tech: Kotlin, Jetpack Compose, Room SQLite, Google Maps SDK, Firebase Firestore, MVVM, Material 3

- Architected and published native Kotlin wildlife companion app on **Google Play Store** with **50+ active downloads** and an exceptional **4.8 / 5.0 public rating**.
- Embedded interactive **Google Maps SDK** navigation featuring custom vector markers, animal habitat routes, and zone-based geofences spanning **20+ wildlife enclosures**.
- Engineered a **100% declarative UI** with **Jetpack Compose** and local **Room SQLite** persistence, reducing screen transition latency by **90%** and enabling full offline viewing.
- Formulated continuous in-app user feedback loops, elevating Play Store public score from 3.6 to **4.8 / 5.0 stars (+1.2 rating boost)** within **90 days**.

Tic Tac Toe — Smart Android Game with Minimax AI Engine [\[GitHub\]](#)

Nov 2024

Core Tech: Kotlin, Android SDK, Custom Canvas/XML, Minimax Decision Tree Algorithm, OOP, Git

- Created interactive Android strategy game featuring dual gameplay modes (Human vs AI and Two-Player Local), completing **500+ matches** with **0 ANR incidents**.
- Programmed heuristic decision engine computing counter-moves in **under 10 milliseconds** via recursive **Minimax** game tree logic, attaining an unbeatable **100% win/draw AI rate**.
- Constructed centralized state management preserving board state, game rules, and score tallies across **100% of device orientation changes** and lifecycle events.

Learning Management System (LMS) — Web Education Portal [\[GitHub\]](#)

Dec 2022

Core Tech: JavaScript (ES6+), HTML5, CSS3, REST API Integration, Modular Architecture, Git

- Designed comprehensive web portal hosting **15+ structured academic courses** with role-based dashboards for students and educators, reducing administrative overhead by **40%**.
- Integrated interactive video lecture player, automated assessment engine, and discussion forum serving **200+ registered learners** with a **95% course completion ratio**.
- Directed a team of 4 student developers to build modular frontend views, driving a **65% surge in weekly student learning engagement**.

CERTIFICATIONS & SPECIALIZED TRAINING

• **Introduction to Android Mobile Application Development** — Meta (Coursera)

Oct 2024

Comprehensive training in Android Studio, Activity lifecycles, UI layouts, and Android best practices.

• **Programming Fundamentals in Kotlin** — Meta (Coursera)

Nov 2024

Advanced object-oriented programming, lambdas, coroutines, collections, and functional programming in Kotlin.

• **Cloud Computing** — NPTEL (IIT Kharagpur)

Dec 2024

Explored cloud architectures, distributed virtualization, cloud storage paradigms, and cloud security frameworks.

COMPETITIVE PROGRAMMING & HONORS

- GeeksforGeeks Institutional Rank 500:** Ranked among top university coders out of **5,000+ peers** through continuous algorithmic problem-solving in Data Structures and Algorithms.
- Coding Ninjas Division Master:** Secured Division Master standing with **92% accuracy** across weekly competitive programming contests.
- 200+ Algorithmic Challenges Solved:** Solved 200+ Data Structures & Algorithms problems across LeetCode, GeeksforGeeks, and Coding Ninjas focusing on Arrays, Trees, Dynamic Programming, and Graph algorithms with optimal time-space complexity.

PERSONAL DETAILS & ADDITIONAL INFORMATION

- Languages:** English (Professional Working), Hindi (Native / Fluent)
 - Permanent Address:** Sugauli, District East Champaran, Bihar, India – 845456
 - Relocation:** Open to relocation across India & remote opportunities
- Engineering Interests:** Mobile UI/UX Design, Jetpack Compose, Offline-First Architecture
 - Profiles:** GitHub (@Gulshankumar21), LinkedIn (@gulshan-kumar38)
 - Portfolio Website:** gulshankumar21.github.io/gulshan-portfolio
